

All the
**comforts of
home.**

For the place where you actually
spend your life.

These days, everyone's working harder. Thankfully, that includes our designers. Inspired by the Guggenheim Museum, our team created a collection that exudes beauty and comfort from top to bottom. Note the sweeping forms, the flared arms and backs, the detailed stitching and the touch of lightness created by the exposed raised wooden base. Perfect for lobbies and executive offices, the Exurbia Collection is a work of art you'll look forward to knuckling down with. No matter how late into the night your job might keep you.
